

Release Notes for AutoBackup 5.0 (Build 1593)

1 General information

Please check for new App versions!

1.1 Operating systems

- Microsoft Windows 10 x32/x64
- Microsoft Windows 11 x64

1.2 Installation

You need ETS6 or ETS5 (from version **5.7.2**). ETS4 and earlier ETS5 versions are **no longer supported**. If you have an older AutoBackup version, please uninstall this one first in

- In ETS5 bottom right at "**Apps ... active**"
- In ETS6 top right in "**Settings**" tab and then in "**ETS Apps**" tab

2 Important changes since previous release

2.1 Changes since Release 5.0.1441.0

- CHG: Project GUID and Project Id are also stored in project configuration.
- CHG: When a project is re-imported (as a copy) and opened, or the app cannot access to Backup-Directory, a warning will be shown with the possibility to update the backup path and file name.
- CHG: Backup progress status is shown.
- FIX: Issue floating of configuration dialog is fixed

2.2 Changes since Release 4.0.1384.0.

- FIX: Error message for failed export due to access problem
- FIX: improved check for backup directory
- App does not work in ETS4 anymore

2.3 Changes since Release 4.0.710.0.

- FIX: improved reporting of access problems
- FIX: improved message on export demand

2.4 Changes since Release 4.0.699.0.

- FIX: Incorrect message about newer files after re-import of a previously exported project has been removed (when importing projects exported with version 699, the error can still occur)

2.1 Changes since Release 4.0.538.0.

- NEW: global settings possible
- NEU: path may contain environment variables
- NEU: date of last export with AutoBackup and info about newer dated project export file in Backup directory
